CERTIFICATE No. 24/6859/01/0161/B

Has obtained EU TYPE EXAMINATION in compliance with what is set out in Annex V (module B) in Regulation (EU) 2016/425 and in agreement with the applicable test procedures and technical specifications

Destined for respiratory protection, according to the following standard/s:

EN 136:1998 + EN 136:1998/AC:2003 “Respiratory protection equipment. Full face masks”, as **class 3: Full face mask for heavy duty work.**

Having achieved the performance requirements specified in conformity assessment report No. **2026EC0502** and with the PPE technical documentation available, the corresponding records are archived and can be provided if required.

Description of the PPE:

Full face mask consisting of a main body with a head harness, a neck band, an internal mask, 3 inhalation valves, 1 exhalation valve, a standard thread connection EN 148-1 and a visor.

In this adapter, the air enters directly into the inner area of the main body of the mask through the filter connector in accordance with EN 148-1:1999, which has an inhalation valve. Subsequently, through the two inhalation valves of the inner mask, it passes to the mouth and nose. The exhaled air returns to the atmosphere through the exhalation valve.

The PPE is available with the following variants:
The main body of the mask and The head harness is made of black natural rubber or thermoplastic rubber
It shall be the manufacturer’s responsibility to provide specific information of this certificate and the tested levels of protection.

The CAT. III PPE shall only be used in conjunction with one of the conformity assessment procedures according to module C2 or module D described in article 19 letter c) of the Regulation (EU) 2016/425.

This certificate cancels and replaces the previous certificate with number 24/6859/00/0161
